PART 1: THE CONSTITUTION

Vision

To promote a unique, friendly world-class competition and Games and to develop sport for the benefit of the people, the nations and the territories of the Pacific Community

Philosophy

Our philosophy captures the spirit of the past by which we chart our future.

The origin of these Games dates back to the 1960's. A South Pacific Games Council emerged from the member countries and territories of the South Pacific Commission. This is the Pacific Community as we know it today.

The people of the Pacific are by nature and circumstance of birth and habitat a unique homogeneous inter-nation group of cultures, bounded by region, race, culture, geography, history and lifestyle.

By desire and necessity the people of the Pacific regularly shift their residence within their wider community. This movement means changes in residence throughout the Pacific and frequently is inter-generational. By reasons of work, employment, family, education, health, relationships and sport facilities and opportunities it is anticipated that these trends will continue into the 21st century and beyond.

Our challenge is to facilitate for the Pacific Community continuing sporting competition in the international sporting arena whilst preserving our uniqueness and unity in values and traditions. By this Charter we meet that challenge.

Mission

The Mission is to deliver the vision of this Charter. It is to develop, promote, provide and celebrate successful sport and games in the Pacific in accordance with the philosophy of this Charter and the rules and regulations of the International Sports Federations (IF's) applicable to the sports included in these Games in the best interests of the athletes of the Pacific Community
