

Glen Iris Junior Football Club – Smart Phone App

GIJFC is excited to advise you that the Club has now implemented a Smart Phone app (both Android and IOS version are available).

The primary purpose of this App is to improve information flow to our Club members and to enable Coaches and Team Managers to communicate easily with their individual teams. It will also provide improved exposure for our valued sponsors.

At this stage the App is now available for download from Google Play and from the Apple Store

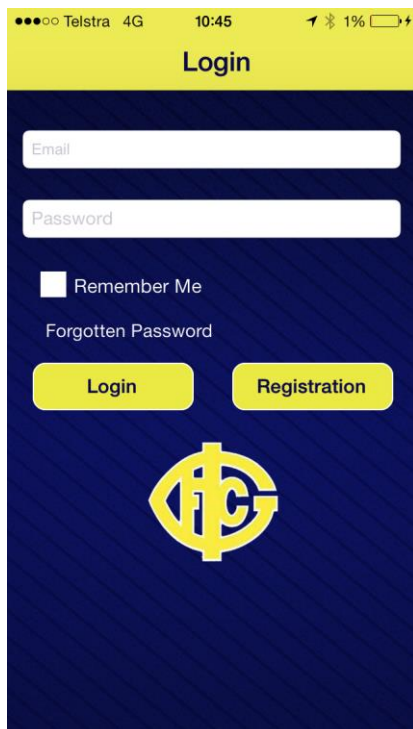

You can click on the relevant logo below to launch the download process for either platform

Alternatively, you can go to Google Play or the App Store and search for “Glen Iris”

The App is free to download and use. However, in order to provide capability around Team Notifications, users must register their details with the App.

Once you have downloaded the App and opened it, you will initially see the Login screen.

First time users will need to click on the REGISTRATION button and register their details.

Return users can enter their username (=email address) and password, check the “Remember Me” box to simplify future logins and then click on the Login button
