

Individual Player Guidelines For Selections

Middles

Attacking Middle: High work rate, finds options mid-field and plays the dominant dynamic middle on attack with the use of scooping, passing, stepping and connection with links.

Working Middle: Controls the defence with clear communication, initiates the forward movement mid-field and sets the foundation for the attacking middle & links on attack.

Links

Shows clear understanding on defence policies, high involvement mid-field and use their ability on attack. Connects with the middle for scooping, is able to throw a 7-10m pass and runs the correct lines on attack.

Wings

Make the correct defending decision on the goal line, high communication, initiates forward movement on turnovers and ability to finish of touchdowns.

Low error rate.

This is to give players attending the selections a simple guideline of how they can implement their skills to the trial. It also gives the coach staff/ selectors guidelines to follow and areas to observe.
