Policies

1. Extreme Heat Policy

When the court temperature reaches 35C, must implement the following timing rules:

- I. Based on a 40 minute schedule played in halves, the game time must be reduced by 2 minutes per half with 2 team time outs per half.
- II. The clock must stop for each timeout and the referee must call an additional compulsory timeout close to the half way mark in each half. Each team must call a timeout before the compulsory timeout and after the compulsory timeout.
- III. If a game is played in quarters, the referee must call an additional compulsory timeout in each quarter if no timeout has been called by half way through the quarter.
- IV. The clock must stop for every whistle in the last minute of the first half and the last 3 minutes of the second half (this may be modified for local conditions in domestic basketball).

When the court temperature reaches 40C games must be abandoned. Subject to any rule or ruling by a competition organiser:

- I. if a game is abandoned before it commences or before or at half time it is counted as a draw;
- II. if a game is abandoned after half time, the game score stands as a final result.

2. Blood Rule

- Any player who is bleeding will be substituted immediately.
- If the referee does not notice that a player is bleeding, then the scorers shall sound the horn and notify the referee immediately.
- Player clothing is to be free of blood before taking the court again.

3. Photo Policy

The following policy has been adopted by Basketball Victoria and operates across all associations and Leagues in Victoria.

Basketball Victoria recognises that there are many legitimate reasons why still and video photography at sports is very common and does not wish to unnecessarily restrict or curb that photography.

It is perfectly normal and acceptable for parents to want to film their children's sports to keep as a memento of their growing up. This is becoming increasingly so with the technology being widely owned.

It is also becoming increasingly popular for coaches to video their teams' games to assist them in training. Less common, but also becoming more so, is for the purposes of scouting another team that will be playing the videoing team shortly. Videos can also assist in referee training. Having a video record of a game is also useful if there is a reportable incident during the game. The video can be used in evidence. At more senior levels, the competition organisers have made it compulsory for games to be taped for precisely this reason. In addition, the knowledge that a game is being taped may act as a deterrent to bad behaviour because players will know they may be captured on tape, even if a referee does not see the misdeed. So there is a safety angle to the issue as well.

On the other hand, photographs and videos can also be used for nefarious purposes. Basketball Victoria is concerned to ensure that it and its affiliated associations take reasonable steps to ascertain that photographic depiction of basketball activities is being used for legitimate and harmless purposes.

This means that competition organisers have to be ever vigilant in protecting participants, particularly children.

Accordingly, the following policy will apply until further notice:

- Associations and leagues should usually allow parents and close relatives to take photographs and video tape games or training provided the parent or relative is known to the association.*
- As a courtesy, the coach or manager of the opposition team should also be notified of the intention to photograph or video the game.*
- Coaches who wish to video their own team's games or training for training purposes should also normally be allowed to do so. Again, the opposition should be informed. Parents of the coach's own team should be advised by the coach if it is intended to regularly video games or training and the reason for it.*
- Referee coaches wishing to video games for training or evaluation purposes should advise the teams of their intentions prior to the game.*
