

WILLETTON BASKETBALL ASSOCIATION INC

WILLETTON BASKETBALL ACADEMY TERM 3, 2021 – now on Sundays and Tuesdays

The Development Training Academy Program for domestic players 9 years and over will begin again in Term 3, 2021, in our new Stadium.

This program is designed for children playing at domestic level who would like the opportunity to spend time with good coaches working on specific skills. Our aim is to enhance each participant's physical, social and basketball skill development, by training in small groups (one coach to six children max), enabling children to receive individual attention and focus on specific skill sets. Our focus is on fundamentals, working on shooting and dribbling. Repetition drilling is utilised, ensuring that players develop good technique that will benefit their game in the long term. We strive to make these sessions fun and enjoyable, while creating a positive learning atmosphere. Throughout the sessions, children will receive ongoing feedback from coaches on skills and performance. All coaches have Working with Children checks.
